

Southwest Calgary Ring Road

Construction Advisory

June 25, 2018

24-Hour Operations along Highway 8

Activity and Location: KGL Constructors will be carrying out temporary, 24-hour operations along Highway 8, west of 69 Street S.W. (near the communities of Springbank Hill and Discovery Ridge). This will involve equipment working in the area to replace an existing stormwater line. The 24-hour operations are necessary because flows from the nearby stormwater ponds will be temporarily plugged and pumped back to the ponds.

To minimize the impact of this work on neighbouring residential areas, KGL will implement the following:

- Site lighting will be located in the ravine south of Highway 8 and aimed away from residential areas
- Operations will be designed to avoid having vehicles back up
- Back-up indicators on equipment will be disconnected
- Noise abatement measures will be placed around pumps and generators
- Dust will be monitored and mitigation measures applied

Scheduled Implementation Date: Monday, June 25, 2018

Scheduled Completion Date: Saturday, June 30, 2018

Hours of Work: 24 hours a day until the completion date

KGL would like to thank you for your patience during this period of construction.
