

# Southwest Calgary Ring Road

## Construction Advisory

March 7, 2019

### Drilling Piling along Glenmore Trail / Highway 8

**Activity and Location:** KGL Constructors will be drilling and pouring a series of piles along the Highway 8 / Glenmore Trail corridor from approximately 69 Street to 37 Street S.W. This activity will take place in the Transportation Utility Corridor near the communities of Discovery Ridge, Springbank Hill, Signal Hill, Glamorgan, Lakeview and Lincoln Park.

Site impacts and mitigation measures will include:

- A drilling rig and other support equipment working in and around the sites
- An increase in noise and vibration during working hours
- Equipment entering and exiting roadways
- Dust from construction activities will be monitored and mitigation measures applied
- Site lighting will be oriented away from residences
- Drilling will typically take place Monday through Saturday from 7:00 a.m. to 7:00 p.m.

The piles, consisting of rebar and concrete, will serve as bases for future guideposts and directional signs on the Southwest Calgary Ring Road. Each location is expected to take several days to complete. Additional drilled piles are planned for the area as construction progresses and further locations become available.

**Scheduled Start Date:** Week of March 11, 2019

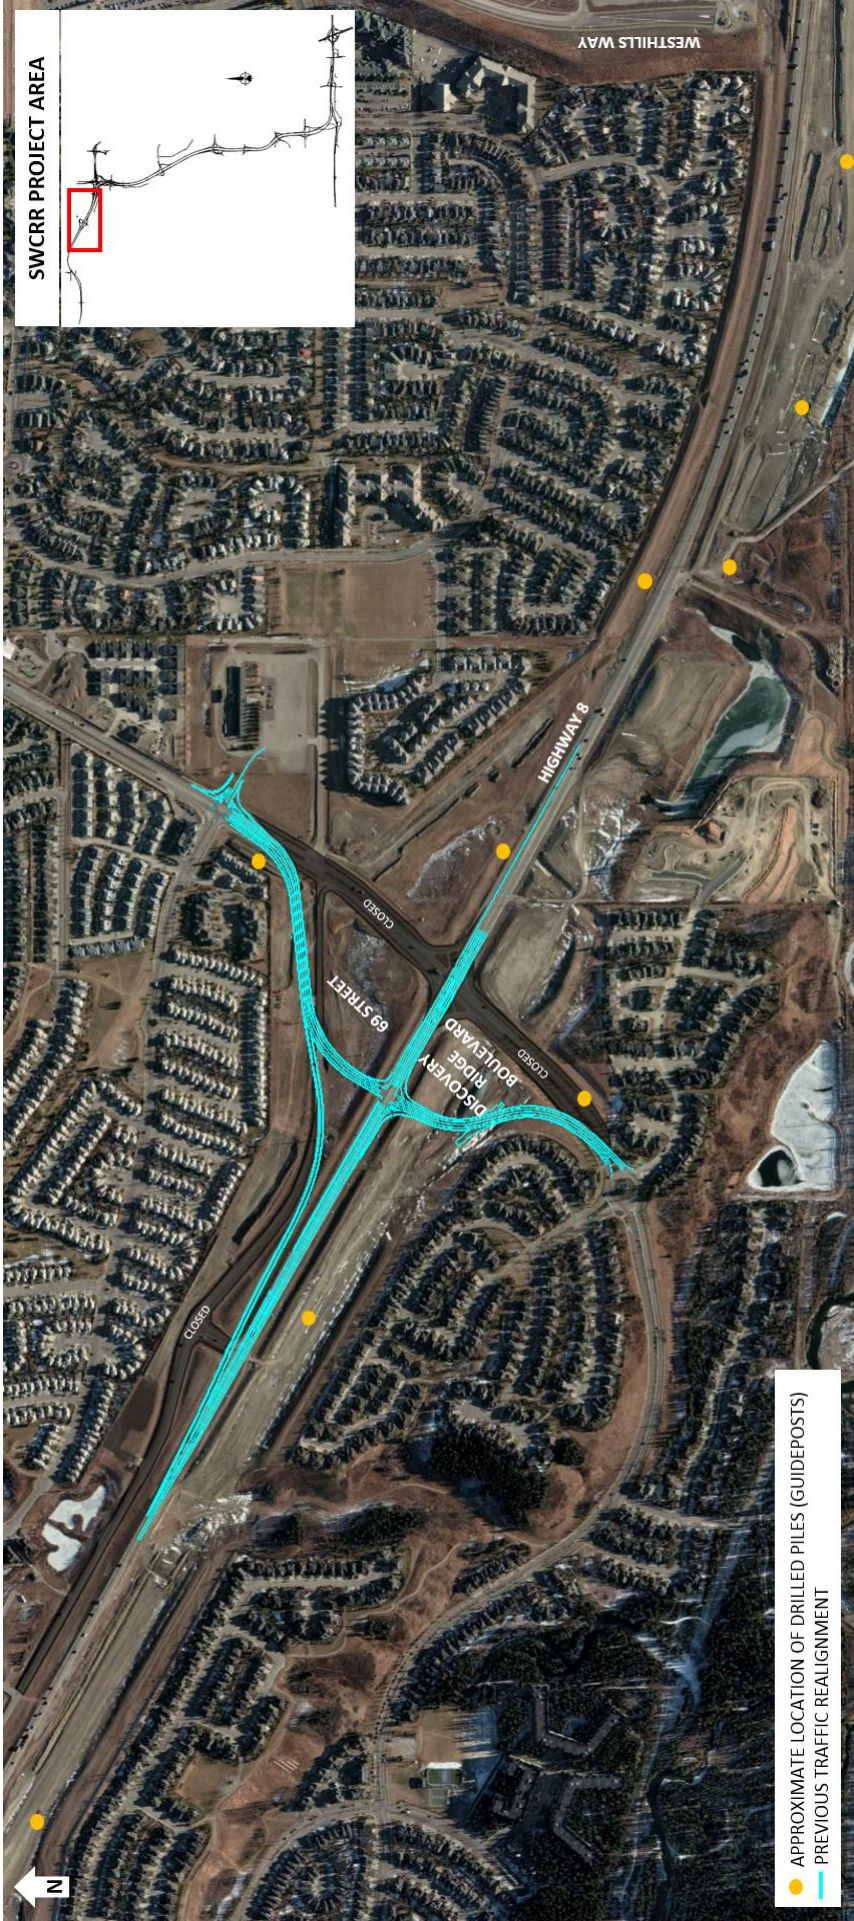

**Scheduled Completion Date:** Periodic activity into summer 2019

**SWCRR Hours of Work:** Monday to Saturday from 7:00 a.m. to 10:00 p.m. and Sundays and holidays from 9:00 a.m. to 10:00 p.m.

KGL would like to thank you for your patience during this period of construction.
