

# Southwest Calgary Ring Road

## Construction Advisory

April 17, 2019

### Extended Hours for Loading and Hauling Gravel Resources

**Activity and Location:** KGL Constructors is expanding the operating times for loading processed gravel from the south end of the North Gravel Site and hauling it along the SWCRR corridor. The typical hours for these operations are expected to run from 6:00 a.m. to 9:00 p.m. through the remainder of 2019 to:

- Accelerate the removal of processed gravel from the North Gravel Site
- Minimize the height and number of stockpiles within the North Gravel Site
- Keep the number of gravel haul trucks using public roads to the lowest possible level
- Reduce congestion and enhance safety
- Meet the construction needs of the project

Activity at the North Gravel Site during the extended hours will be limited to operations involving a loader, haul trucks and water trucks. Haul trucks will be travelling on the haul road and along the length of the project corridor. The hours for excavating and crushing operations at the North Gravel Site remain unchanged.

| Operating Hours:   | Monday to Saturday:     | Sundays and Holidays:   |
|--|-------------------------|-------------------------|
| <b>Loading and Hauling Operations</b><br>(North Gravel Site – Starting April 22, 2019) | 6:00 a.m. to 9:00 p.m.  | 8:00 a.m. to 9:00 p.m.  |
| <b>Excavation and Crushing Operations</b><br>(North Gravel Site)                       | 8:00 a.m. to 8:00 p.m.  | 9:00 a.m. to 8:00 p.m.  |
| <b>SWCRR Construction</b><br>(SWCRR Project Corridor)                                  | 7:00 a.m. to 10:00 p.m. | 9:00 a.m. to 10:00 p.m. |

Additional mitigation measures will be adopted during the time of the extended hours to help minimize impacts on communities near the North Gravel Site and the haul road:

- Loading operations will be limited to the south end of the site where activity is screened by stockpiles
- A low speed limit will be enforced to reduce noise
- Less intrusive white noise back-up alarms will be installed on vehicles (no horn signals)
- Task-specific lighting will be installed and oriented away from residences
- Dust monitoring and mitigation will continue at all times

KGL would like to thank you for your patience during this period of construction.
