

Southwest Calgary Ring Road

Construction Advisory

May 21, 2019

Night Operations near Evergreen

Activity and Location: KGL Constructors will be undertaking night shift work to pour the concrete deck for the new bridge located at the intersection of Fish Creek Boulevard and 37 Street S.W. This is near the community of Evergreen. Bridge deck pours are planned at night to meet the required temperature and evaporation specifications.

Site impacts and mitigation measures will include:

- Bridge construction equipment working in and around the area
- An increase in noise during working hours
- Equipment entering and exiting roadways
- Wherever possible, site lighting will be oriented away from residences
- Low noise light plants will be used

Start Date: Week of May 20, 2019 (depending on weather)

Completion Date: Late June 2019

Other Information: Nine night shifts are expected during this period

For your safety, please obey all construction signs when travelling through the area. KGL would like to thank you for your patience during this period of construction.
